GEO-LOCALIZAÇÃO

GEO-LOCALIZAÇÃO

O QUE A PANDEMIA DEIXOU MAIS CLARO?

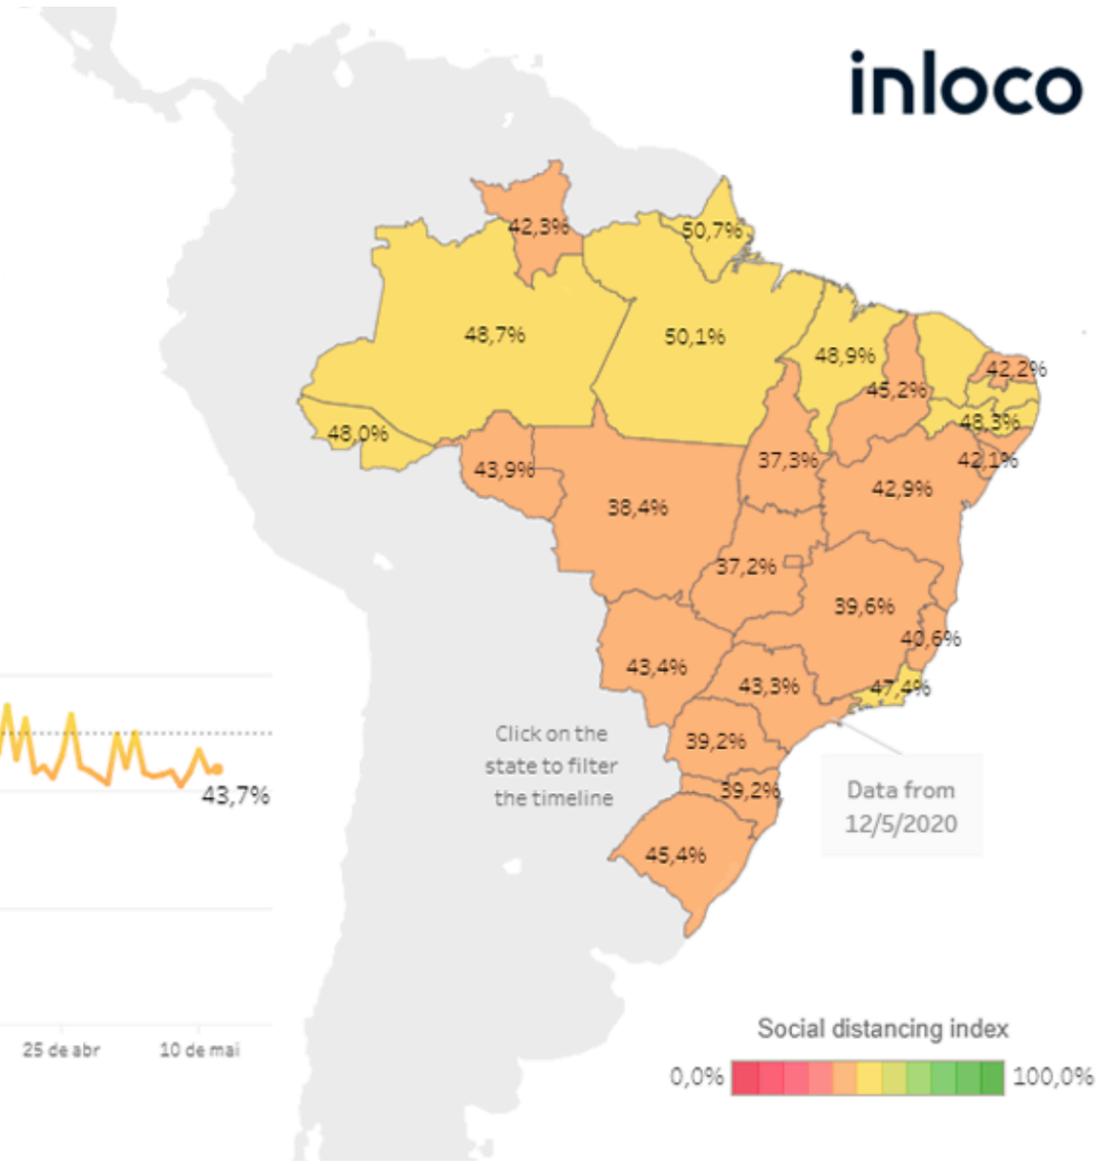

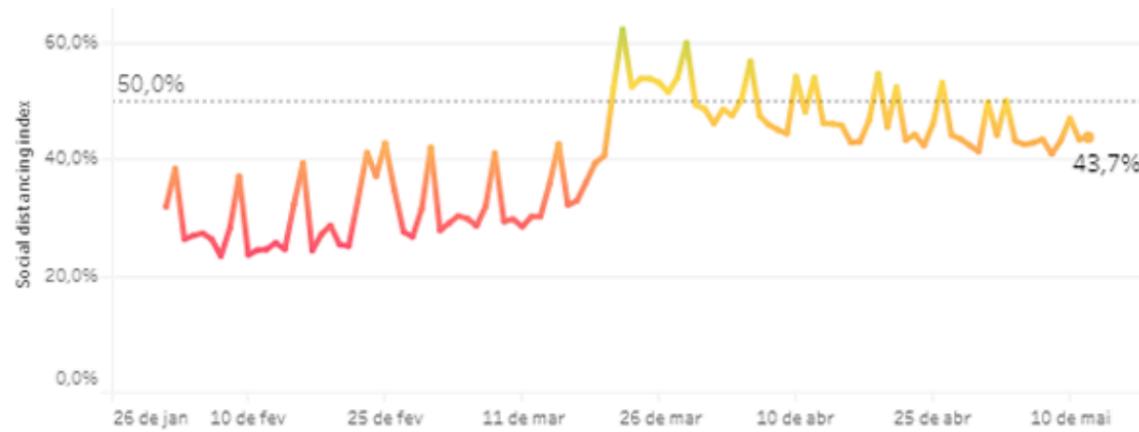

DIMENSÕES DE DADOS UTILIZADOS:

- MAPEAMENTO
- CONTACT-TRACING*
- COMBINAÇÃO DE DADOS

Social distancing index

Social distancing index: **Brasil**

TraceTogether: Singapore turns to wearable contact-tracing Covid tech

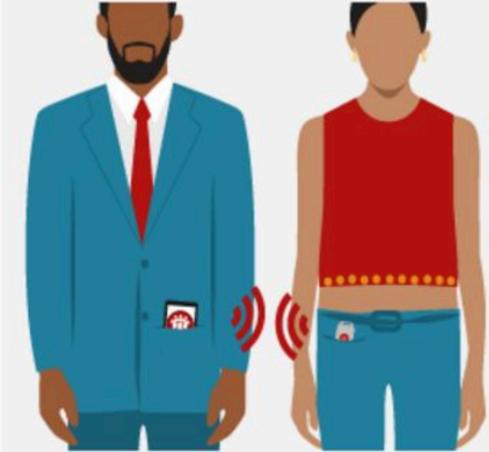

How Singapore's tag-tracing system works

1. The TraceTogether token is carried in a bag or pocket

2. Bluetooth signals exchanged with other tags or app users nearby

3. Interactions kept for 25 days, then deleted

4. If user tests positive for Covid-19, tag must be handed to authorities for contact tracing
